

Healthcare Risk Professional Mentor Program

**Strengthen skills. Build confidence.
Advance your risk management culture.**

Decisions made in risk management directly and indirectly impact the financial well-being of your organization. This critical role must successfully collaborate with all clinical and non-clinical areas of operations—from medical and patient safety staff to legal and regulatory affairs, public relations, human resources, and more.

Can you afford to put a new risk professional in this role without formal training? Give them the support and education they need through our mentorship program—a virtual course designed to equip them with core tools and methodologies to execute reactive and proactive risk mitigation strategies.

Core Modules

- Healthcare Risk Management Operations
- The Role and Responsibilities of the Risk Management Professional
- Patient Safety and the Risk Management Professional
- The Legal and Regulatory Environment
- Fundamentals of Risk Financing
- Claims and Litigation Management
- Technology and Data Management in Healthcare
- Human Capital Management

Who Is It For?

- New hires transitioning into risk roles
- Front-line staff moving into risk roles
- Risk professionals preparing to earn CPHRM credentials
- Organizations seeking to strengthen their risk management programs

Program Highlights

Led by industry experts, this six-month virtual program blends self-study, interactive educational modules, and one-on-one mentoring to provide practical, real-world learning.

- Kick-off meeting to discuss expectations and align on virtual meeting schedule
- Eight interactive modules covering essential topics: healthcare organization governance, risk operations, patient safety, claims administration, data and technology, and more
- Bi-monthly mentoring sessions with clearly defined pre- and post-assignments
- Course materials included (a \$1,000 value)
- Up to three additional hours of individual coaching
