Medical Professional Liability | Alternative Risk Solutions

Dear Valued Client,

The healthcare industry continues to evolve, and Curi is evolving right along with it. Founded by physicians as several regional insurance companies in the 1970s and 1980s, Curi has been identifying new ways to meet physicians' and clinicians' ever-evolving needs since.

As part of our evolution, we are excited to introduce our new One Curi Medical Professional Liability (MPL) policy for our physician clients. To ensure coverage clarity and simplicity, we're excited to introduce a new MPL policy form, **effective January 1, 2027**, for our policies issued in AR, AZ, CO, IA, IL, MN, MO, ND, NV, OK, and SD. All physician policies issued in these states will be renewed on the new One Curi policy form.

Along with your new Curi policy, your practice will have access to a suite of benefits, including:

- HR and Risk Consulting Services
- Litigation Education
- Regulatory & Compliance Support
- Open Payments Reporting & Monitoring
- Online access to policy information and resources via the MyAccount portal

To help you transition smoothly, we've created a dedicated [informational landing page](#). There, you'll find:

- Details about the new policy
- A specimen copy of the updated Physician MPL policy
- Instructions to access your policy online
- Answers to frequently asked questions

#### EXPLORE THE NEW POLICY PAGE

We recommend submitting a new application, as the updated policy may include changes that could impact your coverage. For example, this may impact medical directors employed by outside entities or practices that utilize advanced practice providers. To ensure your unique circumstances are covered, consider completing the [application](#) found on our website or confirming your coverage details with your broker-agent or a Curi underwriter.

We'll also be sending additional details directly to the physicians at your organization, and we kindly ask that you share this resource with them so they're prepared ahead of time.

If you have any questions or would like additional details, don't hesitate to reach out to your broker representative or your Curi team at **800-328-5532**. We're here to help!
